

D-100-C Hand Hydraulic Riveter for Automotive & Commercial Use

LIGHTWEIGHT

POWERFUL

VERSATILE

PRODUCTIVE

ONE TOOL DOES IT ALL

- REPAIR
- RESTORATION
- CUSTOMIZING
- MAINTENANCE

Developing over 3750 lbs of pulling force, this lightweight, U.S. made tool will install blind rivets up to 1/4" diameter (including automotive split rivets), Monobolts® and Huck Magnalok®) and blind rivet nuts up to 3/8" Aluminum and 1/4-20 or 6 mm steel.

Requiring no external power, the D-100 series riveters are ideally suited for any limited production or repair operating. Because of the lightweight and compact size the riveters can be used in limited access areas where other riveters often require very costly adaptive tooling.

With the D-100-C you can repair, restore, maintain or customize automobiles, vans, buses, RVs, boats and small aircraft.

Tooling Applications:

MARINE: Assembly of accessories such as antennae, cleats, etc.

MISCELLANEOUS: RV & Van customizing, stock car building and repair, ultra light and home built aircraft, HVAC installation and repair and countless DIY jobs.

AUTOMOTIVE: Body Shop; Door handles, window regulator, glass stops, bungs, etc.

MAINTENANCE: Sheet Metal installation and repair, door assembly, ductwork, signs, vehicle repair, etc.

D-100-C Specifications

Pulling Force:	3750 lbs
Stroke Max:	625
Weight	20.5 oz.
Dimensions:	6-14"H x 5 3/8"L x 1 3/4"W
Power Source:	Hand Operated Two Valve, Cylindrical Hydraulic Pump Assembly with Pressure Relief Valve
